SOCCKER REGULATIONS

I. GENERAL REGULATIONS

- A. Soccer shall be played in the spring. If a school does not have a girls' soccer team, girls may participate on the soccer team.
- B. Game Administrator Meeting: TSSAA Board of Control policy requires that a Game Administrator be appointed by the principal of each host school to supervise every varsity soccer contest. The Game Administrator must be someone other than the participating coaches. Ideally, it should be the principal, athletic director, or another school administrator, but it may be the principal's or athletic director's designee due to staff commitments.

The Game Administrator of the host school is required to conduct one meeting which must include the coaches, officials, and security personnel prior to the start of each varsity soccer contest. Included in the pregame discussion is to be a review of the expected behavior of everyone involved in the contest. This should be a very positive meeting that sets the tone for an enjoyable contest.

- C. In Division I, TSSAA schools shall be divided into eight regions in Class A, eight regions in Class AA, and eight regions in Class AAA for soccer competition. In Division II Class A, TSSAA schools shall be divided into three regions (East, Middle, and West) for soccer competition. In Division II Class AA, TSSAA schools shall be divided into two regions (East/Middle and West) for soccer competition.
- D. Schools hosting invitational tournaments involving out-of-state teams must have the tournament sanctioned by the TSSAA Office (Contact: Trina Melton – tmelton@tssaa.org).
- E. Video taping or filming is permitted if the taping or filming is for private use or use by the two schools involved and not for public or commercial use. A school will not be allowed to tape or film a game unless its team is involved in the game. All taping or filming by a school may be approved by the local Game Director or Tournament Director, and the Tournament Director or Game Director shall assign space, when available, from which the school may tape or film.
- F. Each district may choose to break ties in its regular season contests using a modified tie-breaker system. Each district shall decide whether or not to use this option prior to the start of the season. If a district votes to use the option for its district contests, the following tie-breaker procedure shall be used in the regular season:

Teams will play two 10 minute Golden Goal (Sudden Victory) overtime periods. At the end of the first 10 minute overtime period, teams shall change ends. There shall be a two-minute interval between periods. If, at the conclusion of the two 10 minute Golden Goal (Sudden Victory) overtime periods, a tie still exists, the tie shall be broken with the penalty kick procedure outlined in the NFHS Rulesbook.

Beginning with postseason play, the two 10 minute overtime periods will not be Sudden Victory. If at the conclusion of the two 10 minute overtime periods a tie still exists, then the tie shall be broken with the penalty kick procedure outlined in the NFHS Soccer Rules Book.

- G. Periods may be shortened with mutual agreement of both coaches, provided it is determined to shorten the length of the periods before the game or before the second half begins. With mutual agreement of both coaches, the game may be terminated at any time.
- H. During regular season play, in the event a game is suspended because of conditions which make it impossible to continue play, the head referee shall declare it an official game if one complete half or more of the game has been played. If less than one – half of the game has been played, the contest may be rescheduled from the start, or with mutual agreement of both coaches, the game may be restarted from the point of suspension.

- I. **Independent Game Participation Rule** - Article II Section 21 states the following:

A game or scrimmage situation involving students from more than one independent team shall be considered an independent game.

This interpretation should be considered in the event that a student athlete wishes to participate in a club team practice, college tryout, etc. after the first contest date allowed in soccer. One exception to the Independent Game Participation Rule has been approved by the TSSAA Board of Control for soccer:

1. Soccer student athletes may participate in Olympic Development Program competitions which have been recognized with the National Federation of State High School Associations.

2019-2020 TSSAA Handbook

- J. Schools found in violation of NFHS Rule 4-1-1b which requires the visiting team to wear solid white jerseys and socks, shall be fined \$250 and must present to the state association a plan for implementation.
- K. In the event that it becomes necessary to postpone a regular season game and the host school fails to notify the assigning officer or the referees prior to their arrival, the referees shall be entitled to one-half of the game fee.
- L. **Mercy Rule (Goal Differential)** – After a 5-goal differential has been reached, the game clock shall run continuously except for heat time outs and injuries. For the remainder of the game, the clock will continue to run regardless of the goal differential. If a 9-goal differential has been reached at halftime or at any time during the second half, the game shall be terminated.

II. DISTRICT AND REGIONAL TOURNAMENTS

- A. Schools hosting contests at the regional and sectional level must secure a field with minimum dimensions of 110 yards by 65 yards. If a school scheduled to host the regional or sectional contest does not have a field with these minimum dimensions, the game can still be played at the facility provided there is mutual agreement of both schools involved in the contest. If there is no mutual agreement, and there is no available field within a 15 mile radius of the host school, the host school may request an exception from the state office.
- B. All tournament play shall be single elimination in Division I and Division II.
- C. In Division I, if there are three or more teams in the district, then the district shall determine the district winner and runner-up in any manner they choose. If there are not three or more teams in the district, tournament play shall begin at the regional level. Districts which choose to have a tournament in order to determine a district winner and runner-up are responsible for selecting a site, tournament director and determine dates for the respective tournament. This decision should be made with approval of a majority of Principals and/or Athletic Directors of the schools in the district.
- D. In Division I district play, the district winner and runner-up teams shall advance to the regional tournament. Since each district sends two teams to the regional tournament, the Board of Control has approved a set bracket for tournament play as shown below:

Top Bracket	Bottom Bracket
Winner District 1	Winner District 2
Runner-Up District 2	Runner-Up District 1

- E. In Division II Class A, the East Region, the Middle Region, and the West Region shall determine the top four teams in any manner they choose.
- F. During the postseason, games suspended due to conditions which make it impossible to continue play shall be continued from the point of suspension of play if less than one half of the game has been played. The same procedure shall be used if more than one half of the game has been played and the score is tied when play is suspended.
