Scoring & Order of Competition Based on 2025-2026 Tennis Regulations:

During the regular season, by mutual agreement, pro sets may be used along with "No Ad" scoring. In post season tournament play in team competition, "No Ad" scoring will be used with two out of three sets in singles. However, a 10-point tiebreaker will be used in lieu of a 3rd set to determine a match. Doubles shall be an eight game pro set during the team competition. A seven point tie breaker will be used in all sets at 6-6.

In Division I (A) and Division II (A) a team shall be composed of five singles and two doubles and players may participate in both singles and doubles. Play will begin with singles and continue until one team has won four matches. If no team has won four matches, teams will play two doubles to determine the winner. To speed up play, it is recommended to have a minimum of five courts to allow all singles matches to play at the same time, but this is not mandatory.

In Division I (AA) and Division II (AA) a team shall be composed of six singles and three doubles and players may participate in both singles and doubles. The doubles will be played first and the winner of the doubles will receive one point. Play will continue until one team has won four matches. To speed up play, it is recommended to have a minimum of six courts to allow all singles matches to play at the same time, but this is not mandatory.
