TSSAA USA Bracketing FAQ & References

Q: Do I and my wrestlers need to create our own USA Bracketing account?
A: *Yes. Coaches will need to create their own account, preferably using the email address that is listed in the TSSAA portal. That is how they will be linked to their team accounts. Once they set up their account, the account will stay with them for the duration. They will not need to set up a new account or login for the next season. Wrestlers will be added to the team roster by the coach by linking their USA Bracketing account to the team. Parents will want to also set up an account to follow their wrestlers during tournaments as well as keep up with their weight decent plan.*

Q: Do I have to create a weigh-in sheet for each competition and enter weights for all wrestlers who weigh in even if they do not wrestle?
A: *Yes, per the TSSAA Wrestling Regulations all wrestlers' weights from competitions must be recorded. Once the wrestlers' weights have been entered into the weigh-in form created in USA Bracketing, you will need to then commit the weigh-in form.*
